

Your Health is Our #1 Priority

During this time, please be reassured that our staff is following the health and safety guidance as prescribed by the Centers for Disease Control and Prevention (CDC) and local public health department.

Health Safety

In addition to practicing social distancing and other CDC guidance, our staff is receiving ongoing training regarding health and safety standards. Employees who are not feeling well – or have family members not feeling well – are required to stay home.

Supporting a Healthy Workspace

We frequently clean and disinfect all high-touch surfaces. In addition to this, we maximize our interior ventilation by opening windows and adjusting our heating/cooling systems. Customers are encouraged to use our virtual services to maintain social distancing whenever it is possible.

Flexible Options

Low-contact and no-contact closing options are available for real estate transactions. Remote Online Notarization (RON), drive-up signings and expedited delivery services are other closing solutions that protect the health of our employees, customers and the greater community.
